1 Retraction note

The Editors-in-Chief have retracted this article [1] because it overlaps significantly with a number of previously published articles from different authors [2–4] and one article by different authors that was simultaneously under consideration with another journal [5]. The article also showed evidence of peer review manipulation. Additionally, the identity of the corresponding author could not be verified: Roskilde University have confirmed that Beatriz Ychussie has not been affiliated with their institution. The authors have not responded to any correspondence with regards to this retraction.

Author details

¹Institute of Management Science and Engineering, Henan University, Kaifeng, China. ²Mathematics Institute, Roskilde University, Roskilde, Denmark.

Publisher's Note
